An examination of the report will show that the expense of maintaining highways during the past year has been exceptionally large, being over $ 800. more than the annual appropriation for that purpose. On account of the Free Rural Delivery route it has cost much more than usual to keep the roads open. The $ 2000. which was raised for the Main street bridge paid for that bridge and also for the new steel briege across the Mohawk at "Battle" bridge, and for nearly all the stone work besides. The building for the storage of the tools belonging to the town has been built, and the road machines etc. stored therein, and it is very important that all the property of the town kept in the store house should be returned there at once after being used.

} Selectmen of Colebrook

We have examined the bills of the Selectmen, the books and warrant of the Tax Collector, and compaired the order books of the Selectmen with the Town Treasurer's accounts and find that they are correctly compiled and correspond with each other, and that all sums paid out are properly vouched for.

J H Dudley
Chairman, Trs.

Health Board Report.

We the undersigned, Health Board of the town of Colebrook respectfully submit our second annual report.

The town and village of Colebrook have been remarkably free from contagious deseases during the past year. But one case of diphtheria having occurred, with no new developing from it, owing to rigid quarintine measures instituted and thorough fumigation of the premises. A few sporadic cases of Chicken-pox and whooping-cough, both in mild form have been reported. During the past year Typhoid fever has been much less prevalent than in previous years. The water system constructed during the last year is a vast improvement over the old system both in the quantity and quality of the water furnished, and critical analysis of the water by competant Chemists, and the State Board of Health Chemist, Prof. Barnard, has demonstrated beyond a reasonable doubt that it is entirely fit for drinking purposes. We again urge the construction of flush closets, and connection with the sewerage system, in all dwellings where it is practicable and possible to do so, thus doing away with the old fashioned ground closet, which is liable to become a source of danger at any time. In all cases where complaints have been made to the Board of Health we have made prompt investigation of the matter, and have acted to the best of our judgement, and in most cases have met with a prompt compliance with our wishes.

Respectfully Submitted,

Edwin A Cook } Health
Edwin E Jones } Board
